Percentage Scores were generated for

- each Criterion
- totals over all criteria for written entries
- totals over all criteria for presentations

D. JUDGES' COMMENTS

Your Written Entry

A straightforward Initiative that does the job, giving us a glimpse of the overall project, that is giving you insight whether this is what your are looking for, in order to dig deeper. Excellent Business Rationale & Context, going straight for the target market without compromising on quality. Being the only Master Mixed plan in RAK, is a statement of its innovation by itself. Similarly, considering that it's one of the first master plans in RAK, the project is a change element by itself. The eco factor mentioned here is of great value; being socially and environmentally responsible is gaining momentum and should be practised by all.

This is a very promising and ambitious project and I was impressed by the way the developer presented the project. You were able to combine a number of things: RAK is an upcoming destination for both expats, tourists and locals and provides a resort-style living. However, I 'd have appreciated a project/community map, and the unit mix information, project video (if they have), and information about the facilities and lifestyle amenities. With the project that is so close to Ras Al Khaimah's unspoiled nature, there are no further indications on how this project can be more sustainable than just having photovoltaic cell on the roofs.

I would like to have seen more on the financial impact in this submission.

Excellent project and well thought out. The reference to market value and 'affordable living' is particularly key in the current market and trends of the Real Estate Sector.

And finally...

Many thanks again for entering the Gulf Real Estate Awards 2019. We hope that you have found this feedback useful. Please do get in touch if you have any further questions or we can be of help with anything else.

We look forward to seeing you participating again next year and remember, any feedback on this report would be most welcome.

Kind regards
